

The Lomond Press

VOL. 4 NO. 13

LOMOND, ALBERTA, FRIDAY, NOV. 7, 1919

\$1.00 PER YEAR.

LOCALS

W. H. Williamsons are enjoying life again after their siege of quarantine.

o o o

The Lomond Consolidated School staff entertained their pupils at a party in the I.O.O.F. hall Friday afternoon. A dainty lunch was served and the children enjoyed themselves very much.

o o o

The funeral of Miss Nina Stebbins who died last week from pulmonary tuberculosis at the home of her parents near Yetwood was held last Friday.

Interment was made in the Lomond cemetery. The fatal disease was precipitated by an attack of the 'flu' last spring.

o o o

The telephone gang if persistent in the effort to give the town an installation, working all through this zero weather.

o o o

Moore, the U.F.A. candidate in the Cochrane bye-election, defeated the liberal candidate by a majority of 150.

o o o

The Canadian parliament is considering a revision of the soldiers' gratuity scheme.

o o o

An extra freight on Thursday brought relief by a car of coal.

o o o

As far as we know the whole universe is frozen up. Its been so cold we have not even heard Bob Edwards mourn over the bye-election.

o o o

C. M. Holo is back from a trip to Minnesota.

o o o

Last Saturday afternoon was given over to police court proceedings when an information for common assault was laid by J.C. Jensen against Chris Koch. This case was dismissed for lack of corroborative evidence. Koch laid two countercharges against Jensen, one for wilful destruction of a fence and one for allowing stock to run at large contrary to the Municipal District by-law. Small fines were imposed on the last two charges, the latter of which is being appealed. Smith heard the first case and Rogers the last two.

o o o

Mrs. Holden, Mrs. Baker and Constable Frewin have been on the town sick list.

o o o

The U. F. A. are building a new kitchen on their hall.

o o o

The Armada mail carrier has been snowed under for a week.

o o o

Mrs. L. R. Shick is away to Illinois on a visit to her daughter.

o o o

Mr. and Mrs. John Grant have gone to the Old Country for the winter.

THUNDER AND LIGHTNING

These common phenomena of nature are but slightly understood by many persons who do not know why the period of sound or the rumble of thunder last so much longer than the flash of lightning. The speed of the light is so great that we see that end of the flash which is the most distant at almost the same time we see the part nearest us. But sound travels much more slowly. We first hear the loud detonation from the nearest point to the path of lightning, then a sound of less intensity as the path veers away from us, followed by a crash as the path again approaches the listener, and so on till the noise from the most distant point is reached.

Mrs. McKinney to Speak Here Nov. 14th.

The Lomond U.F.W.A. has secured Mrs. McKinney, M. L. A., to speak at a meeting to be held in the hall Friday evening of next week, Nov. 14th. As most everyone will know, Mrs. McKinney successfully contested the Clareholm riding at the last provincial election on the non-partisan ticket, and she is considered to be one of the foremost of the public women who both think and speak. Anyone interested in the present trend of political events will be sure to enjoy hearing Mrs. McKinney speak. You are at liberty to tell everyone you meet about this notable coming event.

Before the lecture a short program will be given and after the lecture the time will be given up to dancing. A silver collection will be taken at the door for the lecture and for the dance a charge of \$1.00 will be made. As the ladies are putting on a regular old-time U.F.W.A. lunch you are assured of good value for your money.

A Place for Your Discarded Clothes

Do you know of any families in your district who are likely to suffer for lack of clothing this winter? If so will you kindly send the following information to Mrs. Clements or Mrs. Holden who have been appointed as a committee to act in conjunction with The Womens Civic Club of the Lethbridge Board of Trade. This inquiry is also being sent to teachers where the need is thought to be the greatest.

Give name, address, number of adults in family, number children in family, articles desired, and sizes.

Direct communication can be made to Mrs. Arthur Hayr, 1516- 7th Ave. South, Lethbridge.

The G. W. V. A. dance that is being held at Travers Armistice day, Nov. 11th., promises to be quite a success. There will be several sleigh loads going from Lomond. We have been assured of a good time and a three piece orchestra will supply the music.

Don't Burn Coal---

—in needless quantities. A good heater often saves the price of itself in one season over the waste of an old, poorly designed stove. Then again, a little weather strip gives good protection against the cold

REST WITH NATURE

The closer you follow the rules of Nature the more you will accomplish, and the longer you will live, even nature takes her rest during the winter months—Why not you? Spend this winter on the Pacific Coast, where you can enjoy summer pastimes, ride, motor, golf, in the big outdoors.

The Canadian Pacific Railway operate three through trains daily to Vancouver including the fast all-sleeping car train "Trans-Canada Limited." See the magnificent mountains in their Winter garb; the open seas and green fields—all this and more await you at the Pacific Coast.

Call or write for full particulars to any Agent of the Canadian Pacific Railway.

Born, at Lethbridge on Wednesday, Nov. 5th., to Mr. and Mrs. A. W. Tulloch of Lomond, a son.

o o o

Born, at Yetwood on Thursday, Nov. 6th., to Mr. and Mrs. Milo Snodgrass, a daughter.

o o o

Born, at Badger Lake on Wednesday, Oct. 29th., to Mr. and Mrs. Owen Dalton, a son.

o o o

Born, at Travers on Monday, Oct. 27th., to Mr. and Mrs. H. B. Ulrich, a daughter.

o o o

Born, at Bow City on Monday, Nov. 2nd., to Mr. and Mrs. G. R. Nixon, a daughter.

o o o

Born, at Yetwood on Friday, Nov. 7th., to Mr. and Mrs. Archie Ruggles, a son.

Back to the Old Joint!

J. H. WILLIAMSON is again at the Ogilvie Elevator at Lomond and the house is open every day for all lines of grain business.

Make Your Dreams Come True

Fond parents dream of a bright future for their children.

They dream of the literary and musical education they are going to give their daughter, and of the high position she will take in her sphere of womanhood.

They dream of the education they are going to give their son and vision him some day as a clergyman, a famous lawyer, an eminent physician, a prominent financier, or a captain of industry.

But to make these dreams come true

—or even partly true—requires foresight planning and money.

To provide the money what plan so wise as to buy Victory Bonds for each child?

Thousands of parents bought Victory Bonds for their children in 1917 and 1918

Surely you will be among the thousands of loving parents who will buy Victory Bonds for their children—this year?

Victory Bonds may be bought on instalments at such easy terms that every parent who so wishes may buy

NOTES ON THE MASQUERADE

It was quite a novel innovation to
serve doughnuts at the dance, but it
tickled the stomachs of the men.

o o o

Charlie Chaplin was with us and a
pleasant time was had. We didn't see
him drawing his salary though.

o o o

It is remarkable that Mike the Cob-
ler did not enlist in the Irish Navy.

o o o

The Vets were quite pleased with the
costume giving an interpretation of
"Peace".

o o o

Bobbie's trim little ankles and finely
moulded shoulders were a great attrac-
tion to the admirers of "the eternal
feminine".

o o o

And for originality can you beat
"THE LOMOND PRESS". It was a very
wise admonition prominently display-
ed on the back—"Prepare for Winter".
We are allotting a years subscription
as a reward for the effort.

o o o

You could not hire the judges again
to shoulder the responsibility of making
the final decisions. In making your
criticisms just remember that the
judges must use their judgment in the
affair. We have no kick anyway, we
got the prize. And to think that all in
fun we had been claiming the little
trinket ever since the spirit moved us
to enter the competition.

o o o

Don't forget the G. W. V. A. Hard
Times Dance at Travers on Armistice
Day Nov. 11th.

A SPENDTHRIFT AMONG ANIMALS

The weasel is the Jekyll and of Hyde
among the furred creatures. He has
a sneaky name and a reputation for
heedless slaughter. He is slender and
sinuous, not as large as a house cat,
but every ounce of him is vicious. He
will lay low a flock of chickens mostly
for the fun of it, sucking a little blood
from the corpses of his victims. One
thing in his favor—he's foolishly fear-
less. Sometimes a trapper isn't out of
sight of a trap when a weasel rushes
into it and dies in a fighting rage. In
summer the weasel is plain brown in
color, but in the north when the snow
comes, his coat changes to silky white,
with a tip of jet black at the end of his
tail, and from a worthless destroyer he
is transformed into a prize, worth his
weight in silver. He is a weasel no
longer, but an ermine! His fur is
among the costliest, and fashion rules
that ermine is the leading style for
summer wear as well as for the robes
of royalty. It would be a rash econo-
mist who would oppose feminine whim
in his efforts to reduce the general
pressure of expense. A certain mar-
gin of so called luxuries really are nec-
essities. No one would care to live in
a world shorn of things beautiful, grace-
ful and amusing. But an ermine scarf
about a slender throat is a symbol. In
life the weasel is one of the wasters of
the wild; a ferocious spendthrift of the
lives of birds and lesser beasts. Dead,
the ermine becomes civilization's token
of idle extravagance; part of it a bit of
finery whose purchase price might feed
a family for a year.

One consolation, we won't have to
dress for the Hard Times dance Nov.
11th, at Travers. We can look natural.

Apple Bargains

INVENTIONS THAT WON THE WAR

Germany declared war—when the Keil Canal was deepened? No; but when German scientists had perfected an apparatus for extracting nitric acid from the air!

The connection is not obvious to the non-scientific. But it is necessary only to explain that nitric acid is the chemical base of all explosives—and Germany nearly won the war with high explosives.

Germany, in this as well as in other war inventions, stole British discoveries. The British people, however, according to Sir Charles Parsons' presidential address at the British Association for the Advancement of Science do not intend to let it happen again.

An indication of what British Scientists have done in the last five years is disclosed in the following partial list of discoveries and inventions—Mustard gas, the "tank", phosgene, chlorine-pyridine gas, extraction of atmospheric nitrogen, aniline dyes, sound-range-finding for guns, "directional" wireless telegraphy, iceberg detectors, submarine hydrophone, submarine cables to guide ships through mine fields or through turbulent channels in fog, the "dream-bought" airship, and a marvelous machine for registering human thoughts and emotions.

One of the romances of invention during the war was the hydrophone. To develop the instrument that "listens" under the water for the noise of the submarines, the physical structure of a whale's ear was studied. The whale hears through its head. So British scientists invented a celluloid whale and the submarine chasers towed it behind them and "heard" the Huns miles away. Another apparatus which sends out "beams" of high frequency sound-

No. 1 Apples

\$2.90 per 48-lb. box

This car arrived suffering from frost, but everything has been hand-picked. There are a lot of boxes absolutely unharmed and still in original pack. At the regular price these are extra value. The re-packed cases at \$2.60 are a real bargain. Then again, if you could utilize some slightly frozen ones, these are going out at a give-away.

waves will locate icebergs or submerged rocks. And it is possible to even make deep sea sounding with it.

In future entering a harbor in a fog need present no difficulty to a ship's captain. Electrified cables laid in the bottom of the channel, a little machine on board "detecting" the current passing through the cable are all that is required to show the captain whether he is taking the proper course or not.

Sir Charles Parsons, himself the inventor of the turbine engine which made the battle-cruiser and the Fisher naval programme possible, claims that Great Britain, the country which gave to the world the steam-engine and the locomotive, is once again the leader of the world in inventiveness. Judging by the record of the past five years the claim is well-founded.

RAE L. KING, PROP

LOMOND, ALBERTA, NOV. 7, 1919

NOTES

It is a year now since the armistice was signed, yet in Canada we pay three cents to post a letter. Surely this war tax is not to be perpetuated in memory of the great world catastrophe.

o o o

The banks and express companies remit money at practically the same rates as the Canada Post Office and all the protection the first named institutions demand is the bona fide endorsement at the paying end. In the post office you are compelled to await the arrival of advice from the sending station—which sometimes does not come till you have willed your assets on to your heirs and assigns. Why do Canadians persist in being a decade or two behind the times.

o o o

It is estimated that fifty per

cent of the Alberta and Saskatchewan potato crops were frozen in the ground. The November winter we have been having is quite as serious a calamity to the apple growers. Great conservation in the matter of these two commodities is the only solution of the apple and potato markets till another crop is harvested.

o o o

Statistics furnished by the Finance Department at Ottawa for the six months ending Sept. 30th, 1919, show a most encouraging state of affairs, even though there has been a decrease in Canada's total trade as compared with the same six months of 1918. The total value of Canadian trade, export and import from April, 1st, to Sept. 30th, 1918 was \$1,087,232, 880; and for the same period in the present year \$1054,657,462 or \$ 2,575,418, less. But the chief drop was in the value of imports. Exports fell only \$11,329,805 as compared with 1918 totals. When it is remembered that last year the war was still in progress and Canada was exporting munitions that ceased to be made as soon as the armistice was signed, the decrease in exports is surprisingly low. It is clear that our exports of a permanent character, both agricultural and of manufactured commodities, must have risen above even those of the war period.

Canada therefore has maintained a great overseas market for something

more than war supplies, which she has an opportunity for permanently holding. But this market was only rendered possible by the credits furnished to Great Britain and other European countries. Unless the Canadian people by a generous oversubscription to the 1919 Victory Loan, furnish the capital whereby these credits and this vast export trade can be maintained, the same period of 1920 will show a shrinkage that cannot be restored.

o o o

Everyone enjoys a good joke but putting grease on store windows is out of the joke category.

How does your dollar stand?

Big Gold Strike Near Winnipeg

Since H. E. Elves and Duke Armstrong have both become intensely interested in the great mineral discovery near Winnipeg, we print the editorial below from the Winnipeg Telegram. It is claimed by reputable mining men that this discovery will bring a rush rivaling that of '98. It seems too close to home to be true, nevertheless one mining concern has paid as high as three million dollars for a property on which they will carry on bona fide development work.

Few people in Winnipeg today could be found who do not recognize in the events of the past month or two the imminence of a development which will place Manitoba on the mining map of the world. Only this week one of the foremost authorities in America on gold quartz mining, has passed his opinion upon one of Manitoba's mining in a manner which is as emphatic as it is pleasurable.

In so doing, Mr. Tyrrell has only endorsed the opinion of practically every mining man who has visited the district. Yet up to quite recently, it was the fashion to rather sneer at Manitoba's possibilities in the field of mineral production, in certain circles, and those not the least influential.

For five years now, the pioneers who fought for recognition at great cost to themselves, undergoing great hardship, both in the district and in town—for frequently they were hard put to it to make even three meals a day—have consistently, day in and day out, impressed upon the people of this province the splendid opportunities that lay at their door.

To these pioneers the greatest credit is due. Their faith in their country,

their persistence in the face of almost insurmountable obstacles, their dogged perseverance and determination seem now about to bring a rich and well-des-

erved reward. All honor then to that little band of prospectors, and to that still smaller band of business men with a vision beyond the daily routine of business, and have made it possible for Manitoba to enter into its own as one of the greatest gold producing countries on this continent.

The worst is over. The facts are now being recognized. Money is being found, and found readily, to exploit these riches; and Winnipeg and Manitoba will, without a doubt, be deriving a rich revenue from the widened market and from the products from that market which the mining districts of the province must inevitably furnish.

CARE OF THE HAIR

To make a good egg shampoo, use the yolk of one egg, one pint of hot rain-water and one ounce of spirits of rosemary. Beat the mixture thoroughly and use it warm. Rub it well into the scalp and rinse several times in clear water.

To arrest falling hair, use thirty drops of tincture of cantharides, half a teaspoonful of salt, and half a pint of bay rum. These should be mixed well together and rubbed on the head once a day. If the hair becomes too dry apply a little castor oil.

Headache—Much relief is often experienced from rubbing the scalp, which has the effect of drawing the blood from the brain to the surface of the head. Besides acting beneficially in this way, massage has a wonderful power for the strengthening the growth of the hair.

Hair needs little grease. Often it needs none at all, the natural supply being plentiful. It has been amply proven by tests that compounds em-

The success of the Victory Loan is necessary to combine prosperity with peace.

MR. MAN! Some reasons why Life Insurance is a prime Investment :: ::

Statistics show that out of 100 men at the age of 25 when they reach 65:

36 will be dead.

1 will be rich.

4 will be wealthy.

5 will be supporting themselves by work.

54 will be dependent upon friends, relatives or charity.

Eighty-five per cent. of men who have money at 35 lose it before they reach 65.

More than 60 per cent. of people who die leave nothing at all. 15 per cent. leave less than \$1000.00, and only 25 per cent. leave more than \$1000.00.

87 and a half per cent. of all estates left for administration consist only of Life Insurance.

You know you require protection! Why the delay? Make arrangements at once with---

LOMOND SUBSCRIBES MORE ALLOTMENT IN VICTORY LOAN - - 1919

Jas. McQueen and D.C. Klassen have been actively in charge of the Lomond Victory Loan canvas and are more than pleased over the fact that the town has taken up its allotment—and there are yet a few applications to be written up. Of course we dried-outs were not expected to do a great deal this year, but it is found comparatively easy to convince those who have a little money to invest of the value of this opportunity. Nov. 15th. is the closing day.

o o o

The following dispatch was received from Toronto Nov. 5th;

E. R. Wood Chairman, of the Dominion executive of the Victory Loan, made the following comments on the success of the campaign: To date, the campaign is practically half finished. The success to date has been due in large measure to the fact that investors who have so far purchased bonds have bought more than previous loans.

The number of subscriptions as yet are below the number who bought bonds up to this time last year. The subscriptions so far amount to \$208,000,000 which is a satisfactory result for the time expired. It must be remembered, however, that this total includes a very large proportion of the big subscriptions available and in order to make a success of the Loan it will be necessary as in previous campaigns, that the medium and smaller subscriptions shall come forward in very great numbers. It is only necessary for those who have not yet subscribed to

the Loan and who are able to do so to subscribe on the same relative scale as those who have already bought bonds in order to insure success. The rate of interest carried by the bonds, namely 5½ per cent, is the same as on the loans issued in the dark days of the war, all of which are selling at substantial premiums. As a matter of fact this new loan is particularly attractive from the standpoint of the small investor. This is Canada's final financial war effort, and it is not only good business but good patriotism for every Canadian to become the owner of a Victory Bond. Let every man and woman in Canada buy bonds to the limit of their resources and prospective savings of the next ten months. The banks will gladly loan the necessary funds.

J. H. Woods,
Chairman Alberta Press Committee.

THE WAR'S GREATEST NAVAL MYSTERY

"The Cyclops" a 19,000ton ship disappeared mysteriously, March, 1918. She was equipped with every device to safeguard her voyage, and carried a crew of 213 and 57 passengers. The last that was ever heard of "The Cyclops" was on March 4th. when she entered a British West Indies port for coal. Nothing has ever been heard from crew or passengers since leaving the coaling port, and strangest of all, no wreckage has ever been found of the missing ship.

Overshoes and Rubbers

Just arrived, a shipment of Ladies' and children's rubbers and overshoes. Children's sizes, 5 to 10, misses' 11 to 2, ladies' 3 to 8. Why suffer with cold feet when you can buy foot warmers at Salter's.

Sweaters, Caps and Mitts
